

# FULLY INTEGRATED PATIENT PAYMENTS SYSTEM

MOBILE, CONTACTLESS, AND INTEGRATES  
WITH ANY EMR/EHR/PMS

The Liquid Payments solution is a feature rich, all-in-one patient payments system that leverages the latest technology to integrate with any existing EMR/EHR or practice management system with no dependency on companion systems. It's a universal solution to drive efficient, effective patient payments processing.

Liquid Payments features RPA (Robotics Processing Automation), an AI-based technology which creates operational efficiencies by enabling integration with any underlying practice management system. This facilitates automatic posting of payments into patient accounts as well as an improved process for capturing balances due.

## HOW THE RPA PROCESS WORKS

### FITS WITH ALL SYSTEMS

Current implementations include, but are not limited to, the following:

- Allscripts
- Centricity
- ChiroTouch
- CrystalPM
- Denticon
- Dentrix
- Dolphin
- Eaglesoft
- eCW
- EZ Vet
- Open Dental
- OrthoEdge
- Ortho Trac/  
Carestream
- Practice Works
- Rapid PM
- SilkOne

# LEARN HOW OUR PLATFORM CAN HELP YOUR BUSINESS

## CONTACTLESS PAYMENTS

Patient pays quickly and easily from their mobile phone.

## STREAMLINED & EFFICIENT

Provider receives payment. Transactions posted instantly.

## PAYMENT ALERTS

The system notifies the patient of amount due.

## IN-OFFICE BENEFITS

The platform delivers a modern, end-to-end patient-payments experience, using the latest in "smart" payment terminals in-office as well as remote payment options.

- Stand-alone, APP-based device, Wi-Fi and Wireless.
- Requires no external software to initiate payment transactions. Liquid POS resides as an APP on the device, enabling a fast, streamlined payments process.
- Payment amount, patient's mobile number, and any applicable patient/account reference number can all be entered right from the device itself.
- The payment card-capture/tokenization capability at the point of sale allows for the back-end functionality of auto-charging, setting up recurring payment plans, issuing refunds and more.

## EASE OF IMPLEMENTATION

Liquid Payments will work with the merchant's designee and IT resource to establish connectivity, system access, and confirm transaction posting protocols.

## LIQUID PAYMENTS KEY ADVANTAGES

- Contactless payment options
- Fast, convenient payments with mobile devices
- Eliminates paper statements
- Faster processing of hard to collect patient balances
- Seamless integration with any existing EMR/EHR or practice management system
- Supports Telemedicine and Telehealth
- Safe and secure
- HIPAA and PCI-compliant
