

OfficeSuite® Mobile Softphone

TURN YOUR SMARTPHONE OR TABLET INTO YOUR OFFICE PHONE

The business world is increasingly mobile and the line between work and personal devices gets blurrier every day. To stay connected with everyone on-the-go, you need to be able to conduct business anytime, anywhere and from any mobile device. The key is doing it professionally, seamlessly and securely. With The OfficeSuite® Mobile Softphone, now you can.

The OfficeSuite® Mobile Softphone empowers you and your team to work from virtually any device, including iPhones®, iPads®, and Android™ smartphones and tablets. Stay in touch with prospects, clients, vendors and other employees anywhere, anytime and ensure complete business continuity, right from your mobile device.

The OfficeSuite® Mobile Softphone allows you to make and receive calls on your smartphone or tablet and lets you take the features of your OfficeSuite phone with you anywhere you go. The Mobile Softphone uses your business phone number so that you can give clients, partners and colleagues one number where they can reach you while keeping your personal mobile number private. Ensure professional and seamless communications everywhere and never miss a business call when you are away from your desk or out of the office.

The OfficeSuite® Mobile Softphone saves you money as well because it allows you to use your OfficeSuite® calling plan minutes rather than expensive cell phone plan minutes. It also reduces the cost and complexity for international and internal calls made on mobile devices.

Access Your Office Phone Features Anytime, Anywhere

The OfficeSuite® Mobile Softphone is a must-have for busy executives, frequent business travelers and the road warriors of an organization. Essentially, anyone who does not want to lose touch or miss crucial business opportunities will benefit. The Mobile Softphone app is easy to use and is available from the Apple App Store and Google Play store, allowing it to run on both Apple iOS and Android devices.

Benefits:

- ▶ Works on virtually any Apple® or Android™ device
- ▶ Make calls through your OfficeSuite® account, rather than your personal carrier
- ▶ Place calls directly from your phonebook to save time and look-up
- ▶ Use OfficeSuite® minutes rather than expensive cell phone minutes - especially helpful for International calls
- ▶ Display your OfficeSuite® telephone number when making calls from your mobile device

Features:

- ▶ Caller ID display and call history
- ▶ Extension-to-extension dialing
- ▶ Three-way calling
- ▶ Call hold and transfer
- ▶ Direct access to voice mail
